Report of Wilton Highway Department

In making this report I will try to give you an outline of what we have done and what we intend to do. The past year has been one of the busiest years during my term of office.

Our first major job was to rebuild School and Russell Streets, which turned out to be more of a job than we had anticipated, as we had to take out from eighteen inches to two feet of clay, then refill with coarse gravel. By doing this we feel that it will stand the heavy traffic which it receives from heavy trucking. This clay and hardpan we took out did not all go to waste, as we built a parking lot in front of the Town Library with this waste which we had taken out. This parking lot is proving to be of great help in the all-day parking situation in the upper part of town.

Next came the tarring of roads and streets. We tarred about three and one-half miles of road. We have to tar three and one-half to four and one-half miles of roads each year to keep them in good condition, as we have about twelve miles of tarred roads. In tarring this year we covered all streets in the Village, also all tarred roads on Abbot Hill. In tarring I believe the town should tar all of the hills that are repaired or built, as that is the only way to hold them from washing out with heavy rains. In the past I have tried to do this as much as possible. I also have been using an asphalt instead of tar, as I find it gives much better wear on roads which do not get much travel. I find that tar unless it gets a lot of travel will dry up and crack and asphalt will hold its life much better and will require less repair.

I also use chloride on gravel roads that have been built by T. R. A. and find this very satisfactory where

the roads are not too hilly. This chloride makes a moist road, preventing dust and making an easy road to ride on, also easy to maintain.

We built a new bridge near the Old Reservoir which was in bad shape. This made all the town bridges, except the arch bridge on the Greenville road, in good shape.

The T. R. A. money which we received this year we spent mostly to widen roads which were too narrow to plow easily. This year we had double the amount of money, as last year's money we were unable to use due to lack of time and equipment. We widened and installed culverts on Mason Road at Abbot Hill, Joseph Keyes road in West Wilton, Louis Baldwin road on Pead Hill and Dr. Sawyer road in Davisville. Widening the roads at Joseph Keyes' and Louis Baldwin's has proven a big help in plowing snow this winter.

In spending T. R. A. money I have tried to spend it where it would do the town the most good, but we still have a large amount of town road which needs to be rebuilt or repaired. On Abbot Hill there is five miles, on Kimball Heights four miles, in West Wilton two miles, Davisville two miles, Pead Hill two miles, or about fifteen miles in all that needs rebuilding badly. But at the present rate of three thousand dollars a year for this work which we receive from T. R. A., and as it takes about three thousand dollars to rebuild one mile of road, anyone can easily see it will take a number of years to get our rural roads in the shape they should be in.

During the past year we have secured two new tractors, one a Farmall Type M and an I. D. 9 Diesel Motor Type. Both have proven to be of great help. The I. D. 9 is one of the best pieces of machinery the town has ever had to plow snow with. The Farmall tractor has also proven to be of great help, especially the snow

shovel attachment and the road grader attachment for summer use.

Maintaining our roads in the winter months is one of our biggest jobs of the present day travel. As everyone depends on motor travel now, the roads have to be plowed and sanded as soon as it is possible. Most rural people work in the town mills and shops. In order that they can get to work at seven o'clock, the roads have to be plowed and sanded by then. This takes a lot of equipment. But I have always felt, and still do, that these people on the outsides have as much right to have the roads in as good condition as we here in the Village do.

The cost of maintaining the village in the winter months has gone up considerably, due to the amount of snow which has to be moved, but which has to be done due to the parking situation and narrowness of Main Street.

I should like to take this time and space to thank the people of the Town of Wilton for the kind cooperation they have extended to me in the past and present. I appreciate it very much.

LAWRENCE GIBBONS.

WARRANT FOR ANNUAL MEETING
THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Wilton in the
County of Hillsborough and State of New Hamp-
shire qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton on Tuesday, the 9th day of March next, at nine o'clock in the forenoon to one o'clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers.
2. To hear the reports of town officers, agents and committees and pass any vote relating thereto.
3. To see if the town will grant the free use of the town hall for the following purposes: Bent-Burke Post No. 10 American Legion, Wilton Fire Department for their annual party, Bent-Burke Post No. 10 American Legion for Memorial Day exercises, School Lunches.
4. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
5. To see what action the town will take in regard to real estate taken over by the town for non-payment of taxes.

6. To see if the town will vote to accept the budget as prepared by the Budget Committee or make any alterations relating thereto.

7. To see if the town will vote to raise and appropriate the sum of \$238.00 to the Monadnock Region Association of Southern New Hampshire for the issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the town in co-operation with the other thirty-seven towns of the Monadnock Region.

8. To see if the town will authorize the Tax Collector to appoint a deputy or deputies, under the provisions of Chapter 80, Section 42, Revised Laws of New Hampshire, or take any action relating thereto.

9. To see if the town will vote to transfer from unencumbered surplus the sum of \$6000.00 as a Capital Reserve Fund for the erection of a suitable building for the use of the Fire and Highway Department of said town to be added to \$6000.00 already transferred in accordance with the provisions of Chapter 8 of the 1947 Laws of New Hampshire, or take any action relating thereto.

10. To see if the town will vote to accept as a town road, land deeded to the town for a new road, north of Route No. 31, Approximately 400 feet long between

land of Eva Balcom and Charles Stuart to accommodate new houses to be erected, or take any action relating thereto.

11. To see if the town will vote to rescind the two hour parking limit on Main Street voted for at 1947 Town Meeting.

12. To see if the town will vote to raise and appropriate the sum of \$2100.00 for day police officer.

13. To see what sum of money the town will vote to raise and appropriate to defray town charges for the ensuing year, including town officers' salaries and expenses, election and registration, town hall maintenance and equipment, police department, fire department, health department, vital statistics, sewer and water maintenance, town road aid, town maintenance, park and playgrounds, street lighting, municipal court, town poor, old age assistance, aid to soldiers and their families, Memorial Day cemeteries, interest, bonds, county taxes, Monadnock Region Association, libraries, town forest, bridges, new land and buildings, sidewalks construction, temporary notes, town dump and maintenance.

14. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 18th day of February, 1948.

LESLIE N. CENTER,
JAMES L. SHELDON,
GUY M. HOLT,
Selectmen of Wilton.

**NOTE—Action on Articles in Warrant Will Start at
10:30 A. M.**

BUDGET

**Estimates of Revenue and Expenditures for the En-
suing Year Jan. 1, 1948 to Dec. 31, 1948, Compared
with Auctual Revenue and Expenditures of the
Previous Year Jan. 1, 1947 to Dec. 31, 1947.**

	Actual 1947	Estimated 1948

• ANNUAL REPORT OF FIRE COMMISSIONERS

We are pleased to report that fires during the past year were at a minimum.

The Curtis fire could easily have been serious; but quick action held losses down.

Chimney fires have been frequent; but none caused any great damage.

More of the younger men are taking an active part in the fire companies, and we feel that their interest can make the fire department even more efficient than it has been.

Money was raised last year for painting the fire station, but we were unable to have the work done until late this fall. A two coat job of paint was applied. We might state that the building is in sound physical condition. A room for storage of hose was constructed the past year.

A fire alarm box was placed outside the fire station late this year. This box when operated makes a signal 31, which is not the same as the telephone exchange call which is 54.

Your commissioners are much interested in installing some type of fire protection for the fire station. Various methods of protection are being investigated and we expect to ask for appropriations for this purpose. The fire station is a wooden building and the major part of the equipment is stored there. If fire should start in the building it could be a very serious loss to the town.

A quantity of new fire hose was ordered during the year.

Respectfully submitted,
LYNN POTTER,
GUY HOLT,
WHITNEY M. FRYE,
Fire Commissioners

REPORT OF THE FIRE CHIEF

During the year ending December 31, 1947, Wilton was very fortunate in having so few fires when all around us there were so many serious ones. This is partly due to an early discovery and a quick response of the department to alarms. Very much can be done in the early stages of a fire to save the property.

The department answered nine regular and fourteen still alarms. At least three of these still alarms were for flooded oil-burners which could have easily developed into serious fires. Persons turning on oil and then forgetting it until the burner is flooded and then lighting it while still flooded make it very dangerous. This could cause an explosion and seriously burn the person lighting the flooded burner, as well as do damage to property.

Many of our chimney fires could be avoided if people would clean out the tops of stoves, smoke pipes and chimney flues occasionally. They would not have to call the department once or twice a year for a chimney fire. Saying "We were going to have the chimney cleaned" does not prevent the next chimney fire.

Respectfully submitted,

WILFRID S. PELLERIN,

Chief.

REPORT OF POLICE DEPARTMENT

January 1, 1947 to December 31, 1947

Missing persons	1
Complaints and family troubles	53
Store doors and windows open	13
Calls to other departments	14
Calls from other departments	17

38

I also wish to thank Sergeant Conti and Trooper McBain of the State Police for their co-operation during the past year.

HENRY J. DRAYTON,
Chief of Police, Wilton, N. H.

REPORT OF MUNICIPAL COURT WILTON, N. H.

During the year ending December 31, 1947, there were 167 so-called criminal cases, four civil suits and four juvenile cases entered in the Municipal Court, the largest number ever entered since the Court was established in 1915, or about five times the amount entered in 1946 and other years. Of the criminal cases some ninety were Parking and Traffic Ordinance violations.

FINANCIAL REPORT

Total fines, fees and costs collected	\$1177 40
Entry fees in civil suits and sale of writs	2 00

Total collected by Court	\$1179 40
Fines and fees paid to	
State of New Hampshire	\$614 80
Officers and witness fees paid direct	104 90
Cash paid Town Treasurer	
Sept. 17, 1947, on account	250 00
Paid Town Treas. to balance acct.	209 70
	----- \$1179 40

Respectfully submitted,

H. D. CHEEVER,
Justice and Clerk.

REPORT OF OVERSEER OF THE POOR

TOWN CASES

Avery, James E.	\$ 64 00	
Chandler, Nora B.	396 00	
Pelletier, Mrs. Rosella	90 00	
Prancewecz, Stanley	347 50

Clinics attended:

- 4, Polio — 1 adult — Nashua.
- 1, Behavior — 1 pre-school child — Nashua.
- 2, Vaccination — Local, 60 pre-school children.

Red Cross:

- Annual meeting, 1.
- Letters replied, 5.
- Telegrams replied or sent, 9.
- Rehabilitation, Official Visitors, 5.
- Total collections made, \$596.00.

Respectfully submitted,
EDNA J. GILBERT, R. N.

VALE END CEMETERY COMMITTEE REPORT

This past year we turned over the care of the Vale End Cemetery to Mr. Fred C. Nelson and his men.

We are glad to state that the work was done to the satisfaction of all.

The Henry Proctor lot was fixed up to the satisfaction of all concerned.

Respectfully submitted,

LOUIS C. AIMINI,
JAMES L. SHELDON.

REPORT OF SERVICE COMMITTEE

At the last Town Meeting the Committee's suggestion that a permanent Honor Roll for World War II veterans be erected was postponed owing to the high cost of materials.

The Committee now waits for further instruction from the town.

Respectfully submitted,

E. L. KILLKELLEY,
J. E. BURKE,
H. D. CHEEVER,
E. L. FRENCH.

REPORT OF AUDITORS

We have completed our audit of the books of the various town officers for the year ending December 31, 1947 and find them neat, well kept, and in good order.

The records of the Trustees of the Trust Funds, Judge of the Municipal Court, Water Department, Town Clerk, Tax Collector, Treasurer, Selectmen, and Trustees of the Wilton Public Library, were checked and found to be correct.

The uncollected accounts of the Tax Collector and Water Department have been verified by sending individual notices to each debtor.

In our report last year, we recommended that the Water Department limit its credit to water users to 60 days in order to keep overdue accounts at a minimum. This recommendation was not carried out and, as a result, the overdue accounts at the close of this year are approximately 20% greater than they were at the close of last year and several of them are from three to eight half-year periods overdue. Had our suggestion been carried out, we feel that the Water Department would show practically no overdue accounts as of our audit date which is about three months after the last billing date of the year.

We again strongly urge that this recommendation be carried out and further, after due notice has been given, that the service be shut off and that a charge be made for reconnecting.

We wish to express our sincere appreciation to the town officers for their cooperation in presenting their records for audit so promptly and their kind assistance to us in every way during our inspection.

J. ELMER DRAPER,

J. E. RAYMOND,

Auditors of the Town.

February 14, 1948.

SCHOOL DISTRICT OFFICERS

	Term Expires
Moderator, Theodore R. Langdell	March, 1948
Clerk, Mrs. Elizabeth French	March, 1948
Treasurer, Miss July M. Kecy	June, 1948
Auditors: John Lawrence J. Elmer Draper	

SCHOOL BOARD

WARRANT FOR SCHOOL MEETING
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of
Wilton qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall
in said district on the 9th day of March 1948, at two
o'clock in the afternoon, to act upon the following
subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for
the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the
School Board and Truant Officer, and fix the com-
pensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Com-
mittees, or Officers chosen, and pass any vote relating
thereto.
7. To choose Agents, Auditors and Committees in
relation to any subject embraced in this warrant.
8. To see if the district will vote to make any al-
teration in the amount of money required to be as-
sessed for the ensuing year for the support of public
schools and the payment of the statutory obligations
of the district, as determined by the school board in
its annual report.
9. To see if the district will vote to raise and appro-
priate a deficiency sum of \$2,425 for the immediate
payment of outstanding bills incurred for emergency
repairs during the fiscal year ending June 30, 1948.
10. To see if the district will vote to authorize the

School Board to issue five serial notes of \$1,000 each, amounting to \$5,000, which shall be paid annually, the first payment to be made July 1, 1949. These funds to be used to retire the \$3,800 notes authorized at the last March District meeting, plus additional costs of \$1,200 incurred by the School Board in converting the school heating system from coal to oil.

11. To see if the district will authorize the school board and two other legal voters of the district, appointed by the moderator, to act as a special committee to consider the feasibility of forming a cooperative secondary school district and to report to the district not later than October 15, 1948 its findings including building requirements, program of studies, capital investment, operational costs of such a district and such other matters as may be deemed material.

12. If the preceding article is adopted, to see if the district will vote to raise and appropriate the sum of not exceeding \$300 to cover the cost of preparation of the report and traveling expenses of the special committee.

Given under our hands at said Wilton this 17th day of February 1948.

C. RANDOLPH MYER, JR.,
FRED C. NELSON,
MILDRED T. PETERS,
School Board.

BUDGET — 1948-1949

Estimate of proposed expenditures in the School District of Wilton for the fiscal year July 1, 1948 to June 30, 1949, and recommendations of sums to be assessed, including statutory requirements.

July 24, 1947.

J. ELMER DRAPER,
Auditor.

SCHOOL GROWTH

This past year, the school boards in the towns of Amherst, Hollis, Milford, Wilton, Brookline and Mont Vernon have been startled by the increased enrollments in schools. It has been conclusively proven that each community in the next two to five years will be forced to provide additional space for educational facilities for their children.

The impact of this increased school population is being immediately felt in the elementary schools, thus making the school committees conscious of the necessity for building program, either of new construction in their respective towns, or additions to their present plants. The other alternative is to combine their efforts on the secondary level of instruction by forming a Cooperative School District; thus relieving their present buildings of high school pupils and making room for this influx of elementary pupils.

This increase in school population is not peculiar to this area alone. It is nation-wide. There will be more school children in the United States in the next ten to twelve years than ever before. Consequently, this school problem is not temporary, but can be looked upon as being quite permanent. The over-crowding of our present facilities is nothing compared to what it will be in the near future. It will grow from the grade schools, move into the high schools, and pass on to the colleges. The U. S. birth rate this year is approximately 26 per 1000 of population or nearly a 50% increase over the prewar rate. Thus the year 1947 is the highest birth year in the history of the United States.

The following questions have been posed in the aforementioned communities. What can we do? What planning should take place so that our children can have the very best education possible at a price that is within the means of each and every community con-

cerned? With these questions in mind, representatives from Amherst, Hollis, Milford, Wilton, Brookline and Mont Vernon, both laymen and professionals met to think together and to formulate a plan of attack on the problem.

In the course of their discussions, it was brought out that many of the high schools in these areas are too small to offer an adequate, well-rounded program of study; thus only skeleton programs are offered. They cost much more per pupil than similar programs in larger schools, but they have too few teachers to make possible a well-balanced program. The boy who wants to farm, the girl headed toward office work, and the boy preparing for medicine all have the same program. There is little or no music or art education, physical education or guidance. Vocational education is either lacking or offered in one or two fields at the most. Where agriculture is offered boys are often forced to take it in order to fill their programs, whether it meets their needs or not. Where commercial courses are given, all may have to take them to get the units of work required for graduation. Often it is necessary to assign teachers to work in which they are not prepared. Rarely are these small schools good in more than one or two aspects of the program. There are no supervisors or guidance workers to whom teachers can refer problem cases. The equipment is meager. Makeshift laboratories and shops offer small stimulation to either gifted or slow pupils. In most cases the programs in these small high schools are geared to the 20% who go on to college, and the other 80% are offered a program that rarely fits their needs or desires.

After analyzing each town's program of studies, they found some stronger than others, but in most cases it was felt that they were inadequate to do the job that present day society demands. It was further concluded that in addition to meeting needs common

to all, such as emphasizing reading, arithmetic, and other skills needed for learning, a satisfactory school district should provide prevocational and vocational education of varied sorts. It would do this through supervised work experience programs in industry, merchandising, farming, etc. Its program should be broad enough, too, to give ample preparation to those bound for college. It should also provide, in cooperation with other agencies, wherever possible, such services and aids as health clinics, school lunches, libraries, guidance, and audio-visual aids. It should keep in touch with those who leave school, and provide post-high school and adult education. The above could be accomplished only if the school had enough pupils, enough teachers, and enough space so that the services could be rendered at a reasonable cost.

The feasibility of a consolidated school district was brought forth and such problems as size of educational units, transportation, probable building maintenance costs, sites, etc. were discussed, but no conclusions were drawn.

The New Hampshire Legislature in its last session passed an act permitting school districts to combine in a Cooperative School District, thus pointing the way to more effective education. A Cooperative School District may be organized as a cooperative elementary unit; a cooperative secondary unit or both, by majority vote of the qualified voters present and voting at annual or special school meetings in each of the participating school districts. A cooperative board consisting of members from the various school districts shall administer the affairs of the school district. Each school district will bear its proportionate share of capital improvements, such proportion to be determined by the ratio that its equalized valuation bears to the total equalized valuation within the cooperative school district. The costs of operating a cooperative school

district shall be pro-rated among the local districts in proportion that the average daily membership of the local district bears to the average daily membership of the cooperative district. New members may be admitted to the Cooperative School District and local school districts may withdraw, if it is deemed advisable, according to the regulations laid down in the law. Each local district has a part in the formulation of policy and procedure through its representative member, consequently the democratic principles under which our local districts operate are not infringed upon.

To obtain authorization for a more comprehensive study of Cooperative School Districts and to bring this problem directly to the townspeople, it was felt that an article in the warrants of the local school districts would be necessary. Consequently, two articles have been entered in the school warrants to see what action the towns wish to take. It is hoped that the towns will adopt these articles to permit careful study of the school needs in the various towns, thus avoiding any delay.

February 6, 1948.

REPORT OF THE SCHOOL BOARD

During the summer of 1947 Mr. Ames, who served so long and faithfully as Superintendent of the Wilton Schools, reached retirement age. Mr. Newell Paire, formerly Headmaster of the Wilton High School, was made Superintendent. His position as Headmaster was taken by Mr. Sargent. Under the leadership of Mr. Paire and Mr. Sargent the School Board feels that the school has shown marked gains and improvements, thanks to their tireless efforts and the fine cooperation of teachers and townspeople.

It is felt that an explanation is due with regard to the deficit incurred by the School District for which there is a request for an appropriation in the Warrant in the amount of \$2,425. This deficit was due to two causes:

1. An error in estimating the amount of income available for the District from sources other than tax appropriations, namely; \$425 in State Aid and \$750 of bills carried over from 1946 and 1947.

2. At the Town Meeting last year the School Board was authorized to purchase an oil burner for \$3,800. This installation called for a 5,000 gallon tank but as the time approached to award the contract it became apparent that there would be an extreme shortage of oil this winter and that in the interest of safety a 10,000 gallon tank should be installed. It was therefore necessary to increase the amount of the contract to cover the larger size tank. Under the contract it was agreed that if the contractor struck ledge or a serious underground water condition that the contractor would be reimbursed for the additional cost. These two items increased the cost of the oil burner installation by approximately \$1,200. After the oil burner was installed it was learned that the return pipes to the boiler, which are buried under the floor of the basement, were badly

corroded and must be replaced as the water level in the boiler could not be maintained. The total cost of this emergency repair work came to approximately \$1,000. It was also found during the fall that the wiring to the upper floors of the school was overheating and, for the safety of the school, it was felt necessary to replace this faulty wiring immediately. The total cost of the emergency repairs mentioned above and shortage due to an over estimate of funds likely to be available for the year '47 - '48 amounted to \$2,425.

The School Board wishes to express its sincere appreciation to the teachers and staff for their accomplishment during the past year.

C. RANDOLPH MYER, Chairman,
MILDRED T. PETERS,
FRED C. NELSON.

REPORT OF SCHOOL SUPERINTENDENT

To the School Board and Citizens of Wilton:

I respectfully submit my first annual report as your Superintendent of Schools.

Advances in Education in New Hampshire

No single event in the history of education in the State of New Hampshire has had such influence on the educational picture of our state as the State Aid Law passed by our Legislature in the late spring of 1947. This legislation, prompted by the investigation of the Interim Commission established in 1945 to study the educational needs of New Hampshire, and the untiring efforts of our Commissioner of Education, and the many loyal supporters of public education, increased state financial aid to local school districts approximately 400%.

The purpose of the bill was to equalize educational opportunities and to improve public elementary and high schools in New Hampshire by making funds available to those school districts in the state that were operating on meager budgets and were unable to offer the education they desired. It was interesting to note, that during the special school district meetings held in July 1947, over 90% of state aid funds was voted by the towns to be used for educational purposes. No portion of state aid funds for the school year 1947-48 could be used for payment of interest, debt, or other capital expenditures.

To review the manner in which the state aid law functions, the following is presented.

State aid is based on the exact average daily membership of each public school in New Hampshire, or each approved school, in New Hampshire, or in an adjoining state, with all pupils credited to their district of residence for the payment of state aid. Under the

law, aid can be given to districts only for pupils for whose education the district is legally responsible.

The state aid law apportions the aid in two categories, **equalization** and **general aid**. In applying the equalization formula, a required program is set up allowing \$1800 for each approved one-room school with at least six grades, \$75 for all other elementary pupils, and \$100 for each high school student. Under the provisions of the act, the local school district's share in the program is six-tenths of one per cent of its equalized valuation, which is subtracted from the total formula program share, with the remainder paid by the state as equalization aid. After the requirements of the equalization have been met, and one per cent set aside for emergencies, the remainder of the fund is pro-rated on the basis of average daily membership, on a ratio of three to four for elementary and high school respectively. For the purposes of general aid, the average daily membership of the one-room schools is added to the average daily membership of the other elementary pupils. A summary of the computation for the school district of Wilton is as follows:

I Equalization Aid:

One-room schools approved	x \$1800.	
Other elementary pupils	218 x 75.	\$16350.00
Secondary students	62 x 100.	6200.00
		\$22,550.00
Equalized Valuation (1947)	\$2,538.495	
Less \$6.00 Tax on Equalized Valuation		15,230.97
Total Equalization Aid		7,319.03

II General Aid:

Elementary pupils	218 x 12.33	2687.94
Secondary students	62 x 16.44	1019.28
Total Aid—Available Dec. 1, 1947		\$11,026.25

The amount of state aid available to the school districts will vary from year to year as the state enrollment of public school children increases or decreases.

The Cooperative School District Act passed by the State Legislature in the spring of 1947 makes it possible for local school districts, through local initiative, to join together to establish more effective school units. While this act does not have the immediate impact on New Hampshire education that the State Aid Law had, nevertheless, it will perhaps be instrumental in changing the whole supervisory district organization in the years to come.

There are many advantages to the Cooperative School idea. A few of them are as follows. Larger districts make available greater funds with which to provide better buildings, instruction, materials of instruction and more varied programs. A cooperative school does not necessarily mean that education will be cheaper but that more services can be obtained for the dollar spent, consequently a cooperative school is more economical.

A cooperative school district poses many problems, the greatest being that of transportation. This problem, in most cases can be solved, by district owned and operated buses. North Carolina has been exceedingly successful in this respect. The town of Newport, N. H., has embarked upon a program of locally owned and operated buses and it is estimated that their total cost of operation will be approximately 25c per mile. In Supervisory Union No. 63 it is approximately 40c per mile.

Studies are being made in both the Wilton-Milford area and the Antrim-Bennington, Frankestown area on the Cooperative School District idea. However, these studies are not far enough advanced to report upon at this time.

By an act of the State Board of Education on June 30, 1947, a program of minimum standards for teachers' salaries was approved. This action set the minimum of teachers' salaries in the State of New Hamp-

shire at \$1700, this minimum increasing to \$2000, dependent upon the preparation and experience of the teacher.

The salary situation in New Hampshire has long needed improvement. In 1946-47 four towns were paying elementary teachers less than \$1200. \$1400-\$1500 was the minimum salary in thirty-two towns. Nine towns were paying from \$1600 to \$1800. The five towns in this group in our Union were paying from \$1200 to \$1650. A similar salary survey made in 1947-48 shows that no teacher in the state is getting less than \$1700 with the median about \$1850. This is true of the five towns mentioned in our Union.

However, even with this revision of salaries upward, our better teachers are being drained off to neighboring states or going into other employment.

Shortage of Teachers

The teacher shortage is still serious, particularly at the elementary level. However, there is a slight improvement over 1946-47.

For the nation as a whole it is probable that enrollments in "teacher-education" programs now approximate pre-war enrollments. However, many of these undergraduates will not be available for employment for two to three years. Unfortunately, also, the enrollments by states is not geared to the shortages. Relatively wealthy states, where salaries are high and the teacher shortage small, have higher teacher-education enrollments. It appears too, that enrollments are piling up in courses leading to regular secondary school certification when the greatest immediate demand is in elementary schools.

The State of New Hampshire needs approximately 150 new elementary teachers every year. This year there will be graduated from Keene Teachers College and Plymouth Teachers College approximately 30. In the fall of 1947 at Keene Teachers College 45

elected the elementary program and at Plymouth there were 20. Consequently, four years from now we will have 65 teachers available to take 150 or more teaching positions. To alleviate this situation, we have approximately 350 elementary teachers still working on war emergency permits.

The situation is not too encouraging.

School Costs

There does not appear to be any immediate relief in the cost of living today. Such increased costs are reflected in the school budgets of 1948-49. All school costs have risen but the most noticeable increase has been in the area of textbooks, scholars' supplies, teachers' salaries and tuition costs.

A survey recently completed by two supply houses indicates that since the fall of 1946 scholars' supplies have increased from 10% to 40%, textbooks from 20% to 30%, teachers' salaries approximately 6%.

These increased costs have necessitated school boards to raise their tuition price. The state average for secondary school instruction for the year 1946-47 was \$138.89 per pupil. Most school districts are raising their tuition to \$135.00. This will not inflict a hardship on school districts with whom they have contracts and will more equally distribute the costs of instruction.

STATISTICS FOR SCHOOL YEAR ENDING JUNE 30, 1947

School	Boys	Girls	Total	Average Membership	Average Attendance	Per cent of Attendance	Total Tardinesses Per Pupil
High School	33	41	74	69.91	66.12	94.56	111 1.50

REPORT OF THE HEADMASTER

True education takes place when change and growth occur in the pupil. If no change for the better takes place, the educative process has been quite useless. Change resulting in growth then becomes our primary goal, guiding all activities of the school.

The School Board, realizing that a student's environment influences him very directly, has made of our school a constantly improving workshop for pupil growth.

The school is now heated by a fine oil heater converted from the old coal stoker. This new heating plant can heat the building in the coldest weather in a fraction of the time that was necessary formerly.

The conversion to oil released the old coal bin for other purposes. This dingy bin has been converted into a valuable and attractive sewing room painted a pleasant pink, lighted by sight-saving fluorescent lights. The shop classes have been finishing off this room with a large cabinet equipped with drawers for sewing materials of pupils and an area for hanging dresses, etc.

The girls' basement was entirely refinished in pink and has new fluorescent lighting. The appearance of the basement furnishes an important incentive for neatness and cleanliness.

The mechanical drawing room has become a model of proper lighting with new fluorescent lights sufficient to reduce eyestrain to the very minimum.

To reduce the noise level of the building, the old stair treads which have faithfully served for many years have been covered with a sturdy plastic material, reducing noise and making the stairs practically skid-proof.

The typing room has been refinished in two-tone blue. Two fluorescent fixtures have brightened the upper hall. The laboratory has been repainted and old

useless blackboard space converted to much-used and needed bulletin board space. The new movable chair-desks have made this a model classroom, which is easily adaptable to the various modern classroom techniques.

A part of the changed atmosphere the pupils met during the past fall resulted from the many new books which had been ordered. These brightened courses and aided teachers in modernizing the presentation of their subjects. New books and other texts have all been covered by the pupils, thus helping to preserve the town's investment.

These physical changes were accompanied by two changes in the faculty. Mr. Edmund Lang, teaching sciences and mathematics, and Mr. Paul Simpson, teaching social studies, driver education and coaching basketball and baseball, joined the teaching staff. The remainder of the staff is composed of the following members: Miss Jennie Esty, seventh, eighth and ninth grades English and geography and seventh grade mathematics; Mrs. Mary Kennedy, commercial subjects and seventh grade history; Miss Josephine Wilson, tenth, eleventh and twelfth grades English, French II and Spanish I; Mrs. Dorothy Vigue, Domestic Arts classes; Mr. Clinton Stevens, shop work and Mechanical Drawing; Miss Ethelyn Edwards, Music; and Mr. Kenneth Sargent, Biology, Algebra and Junior High School Guidance.

Our increase in staff membership has made possible the introduction of several new courses this year. We now offer Spanish I, Driver Education, Cabinet-Making, Mechanical Drawing II, Stenography II and voluntary activity periods for seventh and eighth grade boys and girls.

The most unusual of these new courses is the Drivers Course. This course, one of the few in the state, was developed under state guidance to meet a defi-

nite need—**well-trained drivers**. All pupils will have actual behind-the-wheel training, as well as class-room study. It seems that this course is one of many modern courses designed to help youth better prepare for life. It is hoped that other similar type courses will find their way into the curriculum.

With the aim of further development of the **whole child**, the Physical Education program has expanded this year, making it possible for Junior High School boys and girls to take part in two periods of directed activity per week. The co-operation of Miss Manning, Mr. Simpson and Mr. Lang has made this program possible.

Increased library facilities have been made readily available to pupils. The school library has been re-organized and expanded and arrangements have been made for the pupils to go to the Gregg Free Library during the last period of the day. Both of these facilities have been actively used.

The Student Council has gained stature as the year has developed. This group has served the students by organizing the school activity schedule, handling the Student Co-op (this year expanded to include the grade pupils), handling pupils' bus tickets and Athletes' Insurance, and carefully guiding all student activities.

The Wilton Teachers Council is in the process of studying two important areas pertaining to the school. The first is the important one of attempting to shorten the length of the school day. It is hoped that several alternate plans will be developed, meeting all state requirements, meeting the local transportation situation and working in harmoniously with the grade school schedule. The advantages of such a shortening are numerous: reduction of operating costs, especially fuel and electricity; more efficient use of time; more time after school for extra-curricular activities; reduction of transportation costs; solution, to a great extent, of the

problem of having grade-school pupils waiting idly for 15 to 30 minutes for the bus; getting pupils home by nightfall during the short winter days.

The second area of study is one concerned with various phases of marking programs in all high schools of the state. It is hoped that from such information current practices and trends will be determined—perhaps to the benefit of the school.

The weekly assembly programs during the current year have been set up to provide a practical training ground to develop poise, ease of person and good speaking ability in the youth of the town. All programs have been **pupil** programs, actively participated in and planned (with some teacher-guidance) by the pupils.

These are some of the many changes in the school. Since constant change and growth constitute education, it is hoped that we are going in the right direction.

Respectfully submitted,
KENNETH A. SARGENT,
Headmaster.

REPORT OF SCHOOL NURSE

Routine physical examinations were given to 156 girls in November, by Dr. C. E. Rice and to 179 boys in December, by Dr. William J. Collins.

Basketball groups were given special examinations in November by Dr. Rice and Dr. Collins.

Defects found at Physical Examination:

Tonsils	32
Heart murmur	2
Excessive wax in ears	17
Cervical glands	26
Defective teeth	77
Skin disease	1
Pyorrhea	1
Flat feet	2
Polio cripple	1

Activities of School Nurse September to January 15, 1948

All pupils have been weighed, measured and vision tested. Vision was tested by the Snellen method. Pupils in grades III through XII were hearing tested by audiometer. Grades I and II were whisper tested.

Defects found:

Probably malnourished	6
Vision—defective and not wearing glasses	12
Outstanding defects with glasses	2
Corrected defects with glasses	40
Hearing—defective one ear only, since birth	1
Defective both ears, progressive	1

Probably because of prevailing colds several pupils showed hearing loss in one or both ears—when first tested with audiometer. These have been retested one or more times at two day intervals, January 7 to January 15 and eliminated.

The usual home calls for corection of defects and to check unexplained absences are being made.

An informal talk was recently given to Junior and Senior Domestic Arts girls on maternity followed by a discussion period. This will be followed by demonstrations of practical nursing arts, coordinating the discussions with textbook subject matter.

Respectfully submitted,

EDNA J. GILBERT, R. N.

FOREST FIRE PROBLEM

The year 1947 was one of the worst periods of drouth and forest fire occurrence in eastern United States history.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half of their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the travelling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

CHARLES F. YOUNG,

District Fire Chief

N. H. Forestry and Recreation Dept.
